

tiff. PRESENTS
SCIENCE ON FILM
 A NEW SUBSCRIPTION SERIES IN 2012

The Discovery Channel's Jay Ingram hosts this innovative series that uses a fascinatingly diverse range of films as a springboard for intriguing discussions about the intersection of science, art, popular culture and technology. Discover the facts, formulas and phenomena that underpin some of the great films of recent times! The first 100 subscribers to Science on Film will receive a signed copy of *Daily Planet: The Ultimate Book of Everyday Science* by Jay Ingram, courtesy of Penguin Canada.

GUEST AND FILM HIGHLIGHTS:

- Pamela Reid on *Best in Show*
- Martin Antony on *Vertigo*
- Robert J. Sawyer on *The Day the Earth Stood Still*
