

Wireless Configuration Instructions for IPHONE/IPAD/IPOD TOUCH

These instructions will configure your wireless connection to the **RU-Secure** wireless network. It will allow you to authenticate and browse using a higher level of security and protection. It will also automatically log you in after your first connection – no need to login and authenticate every time you come onto campus.

Note: The diagrams used below are taken from an iPhone, but the same instructions will apply to iPad and iPod Touch.

<i>Instruction</i>	<i>Diagram</i>
--------------------	----------------

1. From your home screen click the **Settings** button.

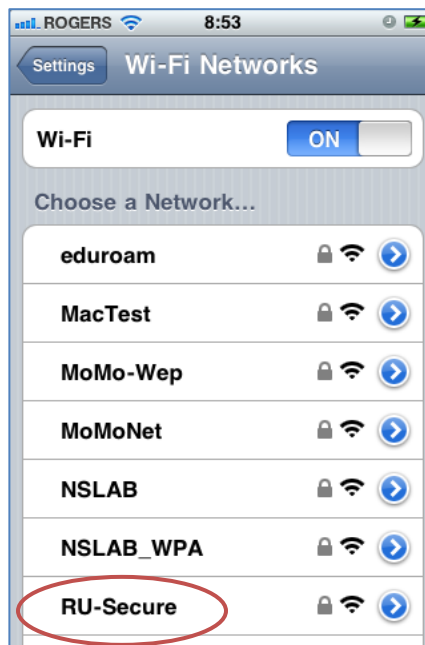

Instruction

Diagram

- From the **Settings** window, click **Wi-Fi**.

- From the **Wi-Fi Networks** window, select the **RU-Secure** network.

4. On the **Enter the password for RU-Secure** window, type in your username and password:
 - a. **Students/Faculty:** Use your **my.ryerson** credentials.
 - b. **Staff:** Use your **CFAPS** credentials
5. Click **Join**.

6. A screen will display asking you to accept a certificate. Click **Accept**. You may have to wait a few moments for the certificate to be processed.

You will now be connected to the **RU-Secure** wireless network. You will automatically be connected each time you are within range of the wireless signal.
