

Global Entrepreneurship Week

November 14 - 20 / 2016

Integrated within the heart of a world-class city, Ryerson seeks to positively impact Toronto's economic, cultural, environmental and social needs through relevant research, academic approaches, experiential learning opportunities, partnerships and a culture of entrepreneurship.

We are enterprising

Ryerson's innovation ecosystem embraces many forms of partnerships and platforms for market innovation, including zones, incubators, accelerators and joint ventures.

2,200+

Jobs created in new startups over the last 5 years

494 Number of students involved in client companies

1,314

Total innovators involved

820 youth (under age 29) from the broader community involved in client companies

Zone Learning

Working out of one of Ryerson's industry-specific zones, students prepare for the workplace of the 21st century by developing their own startup or idea or collaborating on someone else's – while receiving exclusive access to resources and mentors.

DMZ

Established April 10 2010

260 Startup companies incubated or accelerated at the DMZ

10 Campus zones focused on different industries

226 Startup companies incubated or accelerated over the last two years in all zones

324 Teams currently working on startups in all zones

Ranked top university incubator in North America and third in the world

\$213 million

Seed funding raised by DMZ companies

We stay relevant

Ryerson's ability to catalyze inventive social and commercial applications through multi-disciplinary talent development and knowledge creation benefits all of society.

303 Courses offered with entrepreneurship as a component

310

Students in Ryerson's two entrepreneurship clubs, SAGE and ENACTUS

100+

Youth from the broader community involved in entrepreneurship clubs

821
