

# A World of Possibility

Information for US students

We're Ryerson University – Canada's leader in innovative, career-focused education. As critical thinkers and effective communicators, our students enter diverse careers upon graduation or launch their own ventures. They collaborate with industry, government and professional practice to creatively solve problems and be catalysts for both community and global change.

**"Ryerson is the place for international students due to the inclusive atmosphere cultivated both on campus and within Toronto. It promotes both academic and personal development allowing you to gain a unique and valuable university experience that you can carry on to your eventual career."**

## Admission Requirements

[ryerson.ca/admissions/undergraduate/requirements/international](https://ryerson.ca/admissions/undergraduate/requirements/international)

- Admission is based on competitive grades in program specific subject requirements and competitive overall admission averages, as well as non-academic requirements where applicable.
- Graduation from Grade 12 of an academic program at an accredited secondary school with high academic standing including minimum B grades in the program-specific subject prerequisites and a minimum B overall average. In most cases, subject prerequisites should be completed at the AP level and/or Grade 12 honours/senior academic level (some exceptions apply).
- Ryerson University is test optional. While we do not have a minimum SAT or ACT score requirements, strong performance on a standardized test can strengthen an application. If SAT or ACT examinations have been written, the results should be submitted. Institutional codes are SAT/CEEB (0886) and ACT (5166).
- Advanced Placement (AP) examination results will also be considered. AP courses with examination scores of 4 or higher will be considered for transfer credit on an individual basis. Engineering students are not eligible for transfer credits for core and professional engineering courses using AP examinations.
