

Eduroam Configuration for iPhone/iPad/iPod Touch

These instructions will configure your wireless connection to the eduroam wireless network. It will allow you to authenticate and browse using a higher level of security and protection. It will also automatically log you in after your first connection – no need to login and authenticate every time you come onto campus.

NOTE: The diagrams used below are taken from an iPhone, but the same instructions will apply to iPad and iPod Touch.

Step 1

From your home screen click the **Settings** button.

Step 2

From the **Settings** window, click **Wi-Fi**.

Step 3

From the **Wi-Fi Networks** window, select the **eduroam** network.

Step 4

When prompted for credentials, please enter your my.ryerson username and password - please note that your student number is not a valid username on the wireless. Click **Join**.

Step 5

A screen will display asking you to accept a certificate. Click **Accept**. You may have to wait a few moments for the certificate to be processed.

Step 6

You will now be connected to the **eduroam** wireless network. You will automatically be connected each time you are within range of the wireless signal.
