

Real Estate Management Bachelor of Commerce

The Major in Real Estate Management is a new program offered to students in the Ted Rogers School of Business Management. Graduates will be awarded the Bachelor of Commerce (Real Estate Management). The curriculum is designed to give students a strong foundation in real estate management and to provide some opportunity for students to select courses to customize their experience given their own interests and career aspirations. One particularly notable feature of the curriculum is the emphasis on the principles of sustainability, integrity, ethical behaviour and social responsibility. Students will be required to take the course Sustainability in Real Estate where these principles are taught. In addition, the final course, Real Estate Project Capstone, will reinforce these values. The program is consistent with all the criteria associated with the AACSB accreditation.
