T-Centric Hybrid

Task Chair Information

Chair name: T-Centric Hybrid

Order code: t-MT-TLSAL-3SWVOT

Vendor/Company name: Grand & Toy

Chair features

1. The T-Centric Hybrid is a mesh back chair designed to maximize employees' comfort and safety without compromising on style
2. Dual curve backrest 19"w x 25"h
3. 5" patented back height adjustment system
4. Lumbar pad with air lumbar system allows for various pressure options for exact lateral lumbar support
5. Height width adjustable swivel arms, arm width adjustable 2" per arm, rotates 360°, fingertip adjustment from seat pan 7.25" to 10.25"
6. The tCentric Hybrid is a mesh back chair
7. Standard seat size 20"w x 19"d, 8 ply hardwood seat structure, high resilient polyurethane foam
8. Multi tilt mechanism with infinite forward tilt lock out, infinite lock free float, back angle adjustment, adjustable spring tension, 2.5" depth adjustable seat slider
9. 125 mm pneumatic lift for seat height range of 16.5" - 21.5"
10. 26" glass reinforced nylon high profile base
11. 5 dual wheel nylon carpet casters
12. Geometric shaped adjustment paddles and icon plate for user friendly adjustability
13. A modular approach ensures an ergonomic seating solution to fit your diverse workforce. Options include seats, arms, bases, casters and cylinders. Depending on the option, an upcharge may apply.

Modifications from Standard Order

Please list all the possible sizes or size range that is available for this chair with respect to:	
Seat Pan (Check all that apply) <input checked="" type="checkbox"/> Extra Small, Dimensions: 17.5"w x 15.5"d <input checked="" type="checkbox"/> Small, Dimensions: 18.5"w x 17"d <input checked="" type="checkbox"/> Regular, Dimensions: 20"w x 19"d <input checked="" type="checkbox"/> Large, Dimensions: plus size 22"w x 19"d <input checked="" type="checkbox"/> Extra Large, Dimensions: extra deep 22"w x 21"d <input checked="" type="checkbox"/> Other, Dimensions: extra-long: 20"w x 21"d	Backrest (Check all that apply) <input type="checkbox"/> Extra Small, Dimensions: <input type="checkbox"/> Small, Dimensions: <input type="checkbox"/> Regular, Dimensions: <input type="checkbox"/> Large, Dimensions: <input type="checkbox"/> Extra Large, Dimensions: <input type="checkbox"/> Other, Dimensions:
When ordering a different seat pan or backrest, employees should directly contact the chair vendor. If a different size than above is required, please advise the actual size required and we will confirm if it can be custom cut for an upcharge.	

Additional Options

Is there the option of a head rest? ☒ YES Product # AHRTS

Link to demonstration video → www.ergocentric.com/resource/adjustable-headrest

If yes, how will installation be completed?

- 1.) For new order chairs an AHR headrest option can be selected as an additional option at time of order
- 2.) The backrest on the geoCentric chair is pre t-nutted so an AHR headrest can be ordered for an existing chair and retrofitted in the field. A service charge will apply. An upholstery match can be achieved by providing the chair serial number.

What fabrics are available?	Grade 1 fabrics Genesis and Punch Card as standard. Additional graded fabrics are also available at an upcharge.
What colours are available?	Genesis fabric card Punch Card fabric card All graded upholstery options
Resources	Video demonstration Brochure Product Information Sheet
End user support after purchase:	<p>Product training is offered one-on-one or in small or large groups at the customer's site. The key to our training is to educate all users on how to adjust their chair and the benefits of these adjustments to the health of the user. One-on-one training is available for all new employees or as a refresher for existing employees as requested. Features to ensure to adjustability continues to be understood, long after training sessions are given include:</p> <p>Patented geometric shaped adjustment paddles differentiate the chairs' adjustment controls, helping users to instantly recognize an adjustment option by simply feeling the paddle's shape.</p>  <p>Unique to ergoCentric, easily-identified instruction icons represent adjustment paddle shapes and are clearly visible on an icon plate. The convenient location of these new icon plates provide a clearer view of the adjustment options as well as a visual reminder to adjust the chair and what paddles to use for each chair adjustment. A web site address marked on the icon plate indicates where the user can access a step-by-step adjustment guide video.</p>

	 <p>A user guide (chair hanging tag) is provided with every adjustable chair. The tag provides both visual and verbal instructions on how to use the chair's controls as well as ergonomic information for each adjustment.</p> 
What is the ETA for single chair order?	15 business days from receipt of order
What is the price?	\$538.46

Custom Orders

How are special orders addressed?	A free consultation will be conducted with the end user. We will use our modular design approach to recommend the optimum solution. Ordering details including product specifications and pricing will be provided for TMU's approval.
What is the ETA of a custom order?	15 business days from receipt of order

Sample Chair

What are the sample chair specifications?	airCentric high back 19"w x 25"h with standard seat 20"w x 19"d, multi tilt mechanism, lumbar support with air lumbar, 125mm pneumatic lift for seat height range of 16.5" – 21.5", 26" glass reinforced nylon high profile base, 5 dual wheel nylon carpet casters with height width adjustable swivel arms
What is the sample chair ID number?	Each demo chair will have a unique serial number located on the mechanism under the chairs which will provide all the specifications for the chair. A list of the serial numbers will be provided to TMU once the demo chairs have been produced. See an example and information from the serial # look-up below.

The key to our training is to educate all users on how to adjust their chair and the benefits of these adjustments to the health of the user. One-on-one training is available for all new employees or as a refresher for existing employees as requested. Features to ensure to adjustability continues to be understood, long after training sessions are given include:</p> <p>Patented geometric shaped adjustment paddles differentiate the chairs' adjustment controls, helping users to instantly recognize an adjustment option by simply feeling the paddle's shape.</p>  <p>Unique to ergoCentric, easily-identified instruction icons represent adjustment paddle shapes and are clearly visible on an icon plate. The convenient location of these new icon plates provide a clearer view of the adjustment options as well as a visual reminder to adjust the chair and what paddles to use for each chair adjustment. A web site address marked on the icon plate indicates where the user can access a step-by-step adjustment guide video.</p>  <p>A user guide (chair hanging tag) is provided with every adjustable chair. The tag provides both visual and verbal instructions on how to use the chair's controls as well as ergonomic information for each adjustment.</p>

	
What is the ETA for single chair order?	15 business days from receipt of order
