Architecture

MArch

ryerson.ca/graduate
Architecture

Accredited by the Canadian Architectural Certification Board, this program provides students with opportunities for intellectual growth and the development of individual areas of inquiry by focusing on a critical study of architectural practice, both in its contemporary forms and in its future potential.

Research Areas

- Canadian Architectural History and Criticism
- Design Methods
- Food Security
- Health Care
- Heritage Conservation
- Interactive Architecture
- Low-Energy Housing
- Representation in Architecture
- Responsive Architectural Systems
- Sustainable Design
- Urban Ecology

Sample Courses

- Emerging Technologies
- Intensive Research Studio
- Seminar in Critical Practice
- Thesis Research and Critical Project

Admissions Information

MArch

- A pre-professional undergraduate degree in architecture equivalent to Ryerson University’s Bachelor of Architectural Science
- Minimum grade point average (GPA) or equivalent of 3.00/4.33 (B) in the last two years of study
- Two letters of recommendation
- Statement of intent outlining research interests
- Portfolio

Applicants may be required to provide certification of English language proficiency. For more information, visit ryerson.ca/graduate/futurestudents/admissions/english-language.html.

Resources

- Dedicated studio and seminar space for first-year students
- Additional studio for thesis students in second year
- CAD Lab with 40 workstations and additional computers in studio
- Digital Fabrication Zone: 3D printer, laser cutters, CNC router, vacuum former, mini robot
- Full wood workshop
“The most important aspect of a master’s
degree in Architecture is the potential to
explore individual areas of inquiry that are
important to the student.”
– David Campbell, MArch graduate
