

Student Name: (LASTNAME, FirstName)	Student #:
Field of Study: <input type="checkbox"/> Leadership & Education (I) <input type="checkbox"/> Health & Illness (II)	Program Option: Full-time MN001

- As per MN program policy, students enrolled in the Course Stream Fields I or II must complete 10 course credits. This includes: 5 REQUIRED CORE courses, 2 REQUIRED FIELD courses, and 3 ELECTIVE courses.
- Students enrolled in the Course Stream Full-time Option - Fields I and II have a maximum of 5 terms to complete the program and are therefore required to enroll in a minimum of 2 courses each term. The following 3 core courses must be completed within the first 3 terms of enrollment: MN8901 Quantitative Research Methods; MN8902 Qualitative Research Methods; and, MN8903 Nature and Development of Nursing Knowledge. Please refer to the Recommended Program Plan – Full-time Course Stream document included with your Welcome Package for additional guidance when selecting your courses.
- When considering your two required Field I course choices, please note that courses MN8920, MN8921 and MN8934 are cross-listed. This means that you can choose any two of the three as your required Field I courses and use the remaining course as one of your three required elective courses.
- When considering your two required Field II course choices, please note that courses MN8910, MN8911 and MN8931 are cross-listed. This means that you can choose any two of the three as your required Field II courses and use the remaining course as one of your three required elective courses.
- Additionally, when considering your Elective choices, please note that all opposing Required Field courses are cross-listed and are therefore available to be taken as Electives.
- For each term select the course that you would like to ADD (enroll), and use the ADD Action Column to indicate whether each course selection request is your First, Second or Third choice. Note that you are required to select two First choices, one Second and one Third.
- Note that although every effort is made to accommodate a “First” choice course selection request, pre-registration is on a first-received basis. If the program is unable to accommodate your “First” choice course selection request, indicated subsequent choices will be applied.
- You will be assigned a Faculty Advisor once the program has received and processed your Course Selection Request form.
- To submit this Course Selection Request Form for processing, please save and e-mail this as an attachment to Gerry Warner, Program Administrator at gerry.warner@ryerson.ca on or before Monday, July 13, 2020. Note that it is in your best interest to submit this form as soon as possible.
- Please add any additional comments and/or queries in the Comments & Additional Information Section of this form.
- An e-mail containing confirmation of your course selections, as well as the name and contact information of your Faculty Advisor, will be sent upon receipt and processing of your Course Selection Request form.

FALL 2020 TERM
