Budget Form Guidelines

Please read these guidelines before completing and submitting your budget form. It is important to note that this information will be verified; the misrepresentation of information may result in the disqualification of your application.

All resources and expenses on your budget form should be listed, in full, for each of the terms indicated regardless of when the budget is being submitted. For example, if you are submitting your budget in winter, please include your fall resources and expenses as well.

Full-Time Undergraduate Students

- Submit an 8-month (September 1 to April 30) budget and check off both fall and winter terms on the budget form.
- If you are submitting a bursary application, please do not include spring/summer resources and expenses on your budget.

Full-Time Graduate Students

- Submit a 12-month (September 1 to August 31) budget and check off all terms in which you will be enrolled in studies.

Part-Time Students

- Submit an eight-month or 12-month budget, based on the required number of terms for your program (reflecting 100% of your costs and revenues).
- If you are applying for a bursary, we assume that you are also working alongside your education; if this is not the case, please explain why in your written statement.
- Costs of living, food, and personal expenses may be adjusted in proportion to the number of courses you are taking.

Educational Expenses

If you feel that some of your expenses are particularly high, please indicate a rationale for this in your written statement. Expenses included in the budget should be for individual expenses directly related to the costs of your education.

- Tuition Fees: enter the tuition amount for the total number of study periods included in the budget (based on the study periods outlined above).
 - If you are unsure, you can use the “Fees and Enrollment Confirmation” tool under the “Student Fees” section in your Student Centre on RAMSS.
- Books and supplies: only include supplies that are required for the completion of your program (for examples: iClicker, scientific calculator, lab coats, equipment rentals, etc.)

- Accommodation: only include accommodation expenses that are directly related to your study periods (i.e. please only submit eight months worth of accommodation costs if you are an undergraduate student).
 - If you are a student living at home and paying rent to a parent, please indicate this in your written statement.
- Transportation: transportation costs are related to your commute to/from campus, or to your internships/field placements related to your program.
- Telephone and Internet: indicate these costs, if applicable.
- Food: Indicate these costs here, if applicable.
- Personal: only include individual personal expenses (i.e. laundry, clothing, health and dental expenses **not covered** by the student health and dental insurance, etc.).

Study Period Resources

- Personal Savings: Include the amount you have saved to fund your education for the study period in question - it is expected that you contribute financially.
- Government student aid (e.g. OSAP, out-of-province loans/aid, US financial aid, etc.)
 - Indicate the full amount of government student aid that you will be receiving, or have been assessed to receive, for your indicated study period.
 - Please include both grant and loan funding that you will be receiving. If you have declined the loan portion, please include that in your written statement.
- Estimated Employment Income: Indicate the amount you currently/will earn from working during the study period and in breaks between terms and/or spring/summer.
- RESPs (Registered Education Savings Plan): If applicable.
- Scholarships, Awards, and Bursaries: Include any amounts received, if applicable.
- Government Assistance (i.e. social services, CPP, disability, etc.): If applicable.
- Financial Support from Parent(s), Spouse, etc. (i.e. allowances, gifts, etc.): If applicable.
