# Your Guide to the Finance Co-op Program

#### For the 2024-2025 Academic Year

#### **Published January 2024**

The Ted Rogers School of Management (TRSM) offers one of the largest business Co-op programs in all of Canada, with over 2,500 students participating across 12 program streams. With high employment rates, strong relationships with hiring managers, and an industry-leading Co-op Prep Program, the Ted Rogers Co-op program sets students up for success.

The Finance (FIN) Co-op program is the sixth largest program at the Ted Rogers School, and has been steadily growing since its inception in 2017.

As a FIN Co-op student, you have the opportunity to complete up to four Work Terms, representing 16 months of work experience. The employment market is relatively strong for students in the FIN major, particularly in the Fall semester. The average employment rate for FIN students in 2022-2023 was 95%.

You will prepare yourself for your 1st Work Term by completing the mandatory Co-op Prep Program, in addition to completing technical Bootcamps.

**ROTTEM MAOR** 

The Finance Co-op program has added tremendous value to my Degree as it has provided me practical work experience in areas that complement my strengths and are in line with my career aspirations.

Co-op has prepared me for the real-life working environment and helped broaden my network across the finance industry.

Finance students should apply to Co-op because they gain access to situational learning across different companies and industries. I gained 'hands-on' experience at companies such as Fidelity Canada and OMERS.

My takeaway from Co-op is that it is what you make it. The program has Co-op Coordinators dedicated to your success, and Bootcamps to teach you relevant skills. The program rewards ambitious and hard-working students by helping you achieve your career goals.
