

Let's Talk Business

For Ted Rogers School Students

These reports describe industry sectors and career paths of interest to Ted Rogers School students and alumni. Each report leverages BCH employment data and the expertise of our staff. This collaborative effort engages staff, students, alumni and the University Business Librarian.

Updated January 2024

The Finance Major

In your first two years of study, you will take general courses before specializing in more advanced Finance topics. Some things you will learn more about in 3rd and 4th year include:

- The science of funds management;
- Derivatives markets and the mutual funds industry; and
- Advancements in electronic data interchange.¹

You Apply to Co-op at End of 1st Yr.

You will apply to the Ted Rogers Co-op program at the end of your 1st year - a CGPA of 3.0 is expected, in addition to the completion of your core courses.

Participating in the Co-op program involves the completion of four work terms (each four months long) and will extend your graduation by one year.¹

If interested check out the Co-op application guide [here](#).

Nearly 50% of the students in the Finance Major participate in the Co-op program!

- Senior Analyst
- Portfolio Management Associate
- Financial Analyst

Workforce Data

As many Finance graduates are hired by financial institutions in Canada, we looked at a recent issue of a LinkedIn Talent Insights report for RBC Financial (for April 2022) and uncovered that 25% of their 17,000 employees in the Greater Toronto Area (GTA) offices, worked in the Finance department. This workforce distribution is common for most large Canadian banks.³

When drilling down further, graduates can expect the Canadian Banking industry to continue to grow in terms of new hires and overall revenue at an annualized rate of 2.4% in the next five years.³

Let's Talk Money

Based on data from Glassdoor.ca, a 'Financial Analyst' will expect to earn, on average, a salary of \$67,471/yr.⁴

Once you move ahead to become a Finance Manager, you can expect an average salary of \$102,197 after 2-4 years of experience.⁵

Finance Manager	Senior Finance Manager	Lead Finance Manager
📅 2-4 Years of Experience	📅 2-4 Years of Experience	📅 5-7 Years of Experience
💰 \$74K - \$109K /yr Avg. Annual Salary	💰 \$87K - \$132K /yr Avg. Annual Salary	💰 \$82K - \$114K /yr Avg. Annual Salary

Fintech is on the Rise!

- Most finance companies are using embedded solutions (finance and technology) as consumers look to non-financial institutions for financial services; as a result, fintech is going to be highly utilized as part of their product offering.
- Fintechs are rebranding into data organizations and data providers to provide payments and other financial services. By doing so, fintech companies are hoping to differentiate themselves.
- As environmental, social, and corporate governance (ESG) is currently a hot-button topic in industry, fintech companies highly value ESG capabilities and solutions.⁶

Hear from a Ted Rogers Alumni!

OTPP
Private Investment
Valuation Specialist
ECE
AYDIN

I am currently working full-time in a valuations team at the Ontario Teachers Pension Plan (OTPP). Being a Finance major helped me to learn different valuation methodologies, understand the actual meaning behind the financial statements, and analyze investment opportunities.

My advice to you is to utilize all the resources you have, especially your Professors, the BCH, and student groups at TMU. Start early by connecting with industry professionals and looking for internships/co-op placements. Make sure to seek mentors from senior years, and Ted Rogers alumni. Do not underestimate the power of reaching out. One kind email/message can be very rewarding. Your brand will be important as much as your grades. Always strive for more and be patient.

ALI
ALIBHAI

I find that Finance has really helped me refine my skillset and interests, as it is a field that is so wide. There are endless opportunities within the industry, whether it be investing, banking, sales, analysis, FinTech, or more - studying Finance helps you develop many different skills, and you can really go far with it, if you let it take you.

Always think ahead. Picture yourself where you want to be in one year, two years, five years down the road, and work back to where you are today. Create a path for yourself, and always ensure you align your interests with your goals and vice versa - continue to learn and gain valuable industry knowledge.
